

Power of Attorney

“Ensure that the people that matter are well taken care of”

What is Power of Attorney

A Power of Attorney is a legal document that allows you (client) to appoint someone (the Attorney) to make important decisions on your behalf. Any act done by an Attorney under a Power of Attorney is done not in the name of the Attorney but in the name of the client.

General and specific Power of Attorney

A Power of Attorney can be drafted to cover a specific situation, for instance the sale of a house or to operate only in relation to a particular asset, for instance a parcel of shares. This is called a Specific Power of Attorney. A Power of Attorney can also be drafted to cover all situations and assets. This is called a General Power of Attorney.

Appointment of Attorney

The client can appoint one or multiple Attorneys. If the more than one Attorney is appointed, the client must decide whether they must act together to do things (act jointly) or whether to give each of them the ability to act independently as well (act jointly and severally).

**If a client appoints FPTCL as Attorney, the Attorney will always be available to act under the Power when needed by the client.*
